A PRACTICAL GUIDE FOR SMEs selling to the Public Sector

SUPPORTING SMALL BUSINESS IS A CORNERSTONE OF THE EU'S DRIVE FOR GROWTH AND JOBS

The Enterprise Europe Network aims at making the life of SMEs in Europe a bit easier by supporting them in their understanding of what is going on in the EU in terms of legislation, EU funding, assistance in entering other countries' markets by finding partners for them, or through helping with cross border procurement.

Public procurement is not for everybody but you should understand whether it is for you. The procurement process can be daunting but once you understand the rules of this game you can keep on playing much more easily and hopefully winning. International tenders might seem scary – but we're here to help you. Let us take you through what this is all about.

We can help you!

WHAT WE OFFER:

► **Helping** companies with their understanding of how the public sector in the EU as well the United Nations buy

► **Developing** an online knowledge base to support companies in their bids

► **Supporting** SMEs by hosting events and workshops focusing on international tenders, and helping companies get to speak with procurers

99% of all EU companies are small and medium-sized enterprises (SMEs), accounting for **67%** of jobs. Therefore what's good for SMEs is good for Europe's economy.
